

Mr. Aurus Sanchez
The Conversationalist

February 22, 2016

Mr. Sanchez;

It is with great appreciation and gratitude that I write to you for your efforts in bringing your program, "The Conversationalist" to our students at James Madison High School. Our students enrolled in the AVID program (Advancement via Individual Determination, a nationally recognized education program promoting college readiness) benefitted especially from the engaging activities and lectures you gave on Friday, November 6, 2015 and Friday January 8, 2016. The content, which included, engaging people in conversation and formal speech in professional situations was very well received by our students. We feel that content rich programs that focus on advancing student skills that prepare them for college and professional careers is incredibly enriching.

Thank you very much for bringing, "The Conversationalist" to our students. I would certainly recommend the series to any educational program seeking to expand student skill in speech and professional engagement.

Graciously;

Mr. Elliot Haim,
Liberal Arts Academy/AVID Program Coordinator,
James Madison High School
