March 1, 2016

Dear Mr. Sanchez,

I want to thank you for presentation at school today. I am glad that I was able to share your visit with five other teachers in the Career and Technical Education department. By coordinating our efforts, we were able to share your knowledge and positive energy with over 500 of our students.

Your presentation resonated with the message we try to instill in our students: being able to be a strong communicator and dynamic conversationalist is essential to their success as they continue their education and pursue their careers and dreams.

Your rapport with the students was apparent immediately and the students were engaged throughout your presentation.

Thank you for coming to our school to share your knowledge and experience with our students.

Sincerely,

A handwritten signature in cursive script that reads 'Margaret Savitzky'.

Margaret Savitzky, D.C.  
Medical Assisting Instructor  
HOSA Advisor
